THE INDIANAPOLIS NATIONAL BANK Designated United States Depository. Corner Room Odd-fellows' Hall.

THEO. P. HAUGHEY, Pres't. H. LATHAM, Cash.

CONDITION OF THE MARKETS

Wheat Fluctuates with a Very Narrow Range and Closes a Shade Lower.

Corn Shows Increased Weakness and a Loss of Three Quarters of a Cent Follows-Oats Higher-Provisions a Trifle Lower.

MONEY, BONDS AND STOCKS.

The New York Market Shows but Few Festures, the Close Being Dull and Steady. NEW YORK, Aug. 10.-Money on call was easy at 1 @ 14 per cent.

Prime mercantile paper, 42 06; per cent. Sterling exchange was quiet and weak, with actual business at \$4.84 for sixty day bills, and

\$4.871 for demand. The total sales of stocks to-day were 223,179 shares, including the following: Delaware, Lackawanna & Western, 22,208; Erie, 19,008; Missouri Pacific, 4,310; Northwesern, 6,488; New Jersey Central, 12,260; Northern Pacific, preferred, 3,250; Reading, 50,640; Richmond & West Point, 4,360; St. Paul, 16,290; Union Pa-

cifie, 15,600; Western Union, 8,550. The stock market to-day was somewhat of a disappointment to the reactionists who were expecting a further impression upon prices to-day. There was not much feature to the general list, but the bullish feeling in the coal stocks was communicated to the rest of the list and serve to advance quotations fractional amounts. Some effort was made after the great demand had been satisfied to get the market down, and St. Paul was made the special object of attack, but the results were not very satisfactory to the "bears" and sold-out "bulls" who made the attempt. Jersey Central was the great feature of the day and again scored a handsome advance, the dealings at times being attended by considerable excitement. Since the statement of President Maxwell, the bullish sentiment on the stock has and the final disposition of Lehigh-valley stock has removed a stumbling block from the path of the "buils." Besides, the generally favorable condition of the anthracite trade is yet an important factor, and its influence was very marked on the other coalers. In Lackawanna there was some gunning for a large uncovered "short" interest, and Reading was very freely taken for foreign account. Reading was traded in for the first time, ex-assessment, and nearly half of the dealings were of that complexion. The grangers showed some firmness, with the exception of Burlington & Quincy, which was quite weak, losing about two points. The Gould stocks were again prominent, and the Wabashes became quite active at advancing quotations, while Missouri Pacific made a spurt of over a point in the forenoon, though the improvement was not held until the close. As usual of late, several of the specialties made marked, advances, but Pullman was rather weak and shows a material decline this evening. The opening was firm to strong at advances of small fractions over last evening's closing figures, and the small advantage was further increased in the first hour, with Jersey Central and the other coalers in the lead, followed by Missouri Pacific. The advance was maintained up to the second hour, when the gais in Jersey had amounted to over 2 per cent., but the general list advanced fractional amounts only. The activity then slacked off, and before 2 P. M., the market was positively dull, while prices sagged off to within small fractions of the opening figures. No further feature marked the trading, and the market became dull and about steady, so remaining until the close. Closing prices show somewhat irregular changes. but the great majority are in the direction of higher figures. Pullman is the only stock which

The bond market was again moderately active, with sales of \$1,747,000, to which the Atlantic & Pacific incomes contributed \$342,000 and Fort Worth & Denver firsts \$203,000. The tone of the market was firm to strong, but the final changes show few important changes. The Reading securities were features. Alton & Terre Haute dividend bonds rose 21, to 422. Government bonds were dull and steady. State bonds were dull and steady. Closing

CHICAGO, Aug. 10 .- It was a rather lively midsummer day on 'Change. The first disappointment in wheat was the report that the Washington erop report, due at 11 A. M., would not be made public until 3 P. M. The market weakened a little at the opening, but before noon sales were over last night's figures. The range, until thirty minutes before the close, was only ic, but the pit was not as quiet as this would indicate. The crowd had covered some wheat, fearing the effect of the government's figures. Then came the report that the figures were not to be made public until 3 P. M., and they sold the market down to. Outside orders. helped by some more cautious covering, caused a reaction of ic, which was followed by another weak spell. Thus it was a good day for scalp work for any decided turn in prices. Wheat elosed for September where it hung the greater part of the day, at 821c, or a shade lower than at close last night. The large receipts were too much for the corn market. The first weakness was in cash stuff, caused by liberal offerings at or below the September price. The loss to price for the day was about je, and the entire range to for the session. The feature in oats was an advance of te for August delivery, with a subsequent reaction of ic. Other deliveries were steady. The leading feature of interest was selling in the provision pit, occasioned by the yellow fever reports from the South.
Short ribs for September sold before the close
.30c lower; lard, .20c, and mees pork about 50c lower. The close in provisions was steady, with

INDIANAPOLIS MARKETS.

A Fair Volume of Trade in Progress, with a Promising Outlook. INDIANAPOLIS, Aug. 10.

In most departments a good trade for August is in progress; in fact, the volume is above the usual average in this month, and to say that the outlook for business is exceedingly promising, is no exageration. In commenting on the business outlook the Chicago Daily Business says: "The commercial and agricultural world is banking on an autumn and winter of unusual activity, consequent upon the harvesting of the grandest crop ever produced. All the crops have not yet been saved, to be sure, and blighting early frosts may damage or ruin spring wheat and corn, but should no accident or calamity intervene the granaries of the country will be filled to bursting, and a season of solid prosperity rarely equaled will follow. The decks are being cleared for action. Chicago will be ready to take and pay for the crops of the great West and to supply the mercantile needs of a vast tributary territory." In prices to-day there were no important changes. Dry goods are very firm in tone and the fail trade promises to be excellent. Grocers are troubled to get sugars enough to supply the demand and prices rule steady and firm. Coffees are a little dull, prices tending downward. Spices and foreign fruits are moving out more freely at firm prices. Druggiets report their trade good and prices on all articles they bandle ruling firm. The produce markets are in a healthy state, receipts of apples, pears and peaches large, but prices are well sustained. Butter, eggs and poulty in good demand at quotations, receipts falling below the usual August average. There is more activity to the seed market at unchanged prices.

There was a better attendance on 'Change today and bidding was more spirited. Offerings of wheat from the country are diminishing, while receipts of corn are more liberal. Track

bids to day raice as tottoms.
